

“Don’t make something unless
it is both necessary and
useful; but if it is both
necessary and useful, don’t
hesitate to make it beautiful.”
~ Shaker proverb.

S + P Box | Lacquered beech

Information: Inspired by the mechanism of wind up tin toys, this pair of mills will bring a sense of playfulness to any table. Made from beech, the mills have a strong ceramic grinding mechanism effective for both salt and pepper which can be adjusted from fine to coarse. The clear lacquer finish is easy to clean and will protect the wood for many years. The ceramic mechanism can be used even in a humid environment as, unlike metal mechanisms, they will not rust.

Materials: Clear lacquered beech, anodised aluminium and ceramic mechanism.

Dimensions & Colours:
